LAB ASSIGNMENT #6

Create a signup page with Basic details like First name, Last name, Image, Address etc.
Image should be populated by using Camera or Gallery.
Address should be populated using Location Manager.

I have made an Android app 'ImHere' which consists of a sign up page with basic details Full name, Email ID, User name, Password. By using 'select Image' button user can take picture using camera and after the user clicks on Sign up button he/she will be redirected to maps page which displays his/her image and current location.

Below are the screen shots of "ImHere" app:

Sign up page

ImHere

Welcome to ImHere!

Enter your details below:

Full Name

Email ID
